Dear Enrico,

we are pleased to inform you that the AI*IA 2017 Student Grant Committee assigned you a grant for attending the AI*IA2017 Conference and Doctoral Consortium.

This year we received a record number of applications, which made it a hard task devising a proper allocation of the budget allotted for student grants.

As stated in the call, our priority was towards authors of Doctoral Consortium Papers. Since you are not in this list, you were granted the base student conference fee of 190 Euros. However, since you are potentially interested in attending the Doctoral Consortium, we still give you the extra opportunity to submit, not later than October 25th, a 3-to-5 pages-long summary of your MSc/PhD project, related to the paper accepted for the main track or a workshop, to be presented at the DC. This will enable us for an extension of the grant to cover also other travel/meal/accommodation expenses.

Your expression of interest for the grant, as well as for this opportunity, must be notified to us not later than October 20th.

Best regards,
The AI*IA 2017 Student Grant Committee
